

Dr. Gabriel Cousens MD,MD(H) ND (hc)

-DIP. AYURVEDA - ORTHOMOLECULAR PSYCHIATRIST, D.D. (DOCTOR OF DIVINITY)-
-DIP. AMERICAN BOARD OF INTEGRATIVE HOLISTIC MEDICINE-
-INTERNATIONALLY ACKNOWLEDGED LIBERATED BEING-

Dear Friends,

Dr. Francis Boyle, who drafted the [Biological Weapons Anti-Terrorism Act](#) (BWATA) of 1989, has raised an important question – “[Is the mRNA vaccine actually a bio-weapon?](#)” (This requires some research by the reader to determine the answer to this question.) He points out that in the context that this is an untested vaccine, according to the traditional safety protocols for testing for vaccine use in humans. In this context, it specifically violates the [Nuremberg Code](#) on forced medical experimentation for which the Nazis were tried and found guilty. He points out that according to the Nuremberg Code, “following the orders of your superiors” if it is an action in violation of the Nuremberg Code, cannot be used as an excuse. This includes those who choose to follow FDA regulations even if regulations violate the Nuremberg Code. In other words, those who choose to follow FDA regulations in violation of the Nuremberg Code would be considered guilty of crimes against humanity. Many medical leaders and lawyers are also concerned about the dangers of this untested vaccine being rushed to market to supposedly “save” us.

For example, Wolfgang Wodarg, chairman of the EU Health Commission and International Advisory Board, came out against [the use of the Covid-19 vaccine because it creates infertility by creating antibodies to the placenta as well as for other potential dangers](#). Because of this, he is issuing a lawsuit against the release of the Covid-19 vaccines. Apparently, there is also a sterilant in the vaccine. It's unclear what else is being put into the vaccines under the name of “[adjuvants](#)”, but from a medical perspective, the vaccine doesn't seem very safe for humans. The FDA has actually compiled a list of serious side effects which include:

1. Death
2. Transverse Myelitis - the attack of the nervous system and the brain and spinal nerves (I once completely healed a person who developed transverse myelitis and was paralyzed from the neck down for two years, before I saw him.)
3. Arthritis
4. Joint pain
5. Variety of auto-immune diseases, including disseminated encephalomyelitis (a major inflammation of the brain and spinal cord)
6. Sterility
7. Negative pregnancy and birth outcomes (secondarily to our immune cells) after the Covid-19 injection attacking syncytin-1, which has been shown to lead to potential miscarriages, birth defects, and infertility.
8. Guillain Barre Syndrome
9. Damage to our peripheral nervous system leading to abnormalities in heart rate and blood pressure
10. Thrombocytopenia (low platelets and thus easy bleeding)
11. Increased tendency for venous thrombosis, which is the opposite of point #10.
12. Acute myocardial infarction
13. Stroke
14. Seizures and convulsions
15. Multi-stage inflammatory syndrome in children, including inflammation of heart, lung, kidneys, brain, skin, eyes, and of the gastrointestinal tract. (As children are highly immune to Covid-19, the risk-benefit ratio does not justify children being vaccinated against Covid-19.
16. Kawasaki's disease, which is higher in children under five years old
17. Bell's Palsy
18. UK government warns pregnant women not to take the vaccination and women not to try to become pregnant until two months after the vaccination.

One of Canada's top pathologists and virologists and CEO of Western Medical Assessments (a biotech company that manufactures PCR tests), [Dr. Roger Hodkinson asserts that the COVID-19 pandemic is the greatest hoax](#)

ever perpetrated on the public. One of Hodkinson's points is that the PCR test can't diagnose infection and that mass testing should cease immediately. A variety of studies have suggested that the [PCR tests are presenting up to 96% false positives](#). Dr. Hodkinson also pointed out, as have I in previous newsletters, that the research shows that social distancing and universal mask-wearing are completely ineffective. For example, he further states [the virus spreads as an aerosol up to 30 feet](#) (not 6 feet).

Another scientist raising red flags about the Covid-19 vaccine is [Michael Yeadon, MD](#), former VP and scientific advisor for Pfizer and founder and CEO of biotech company Ziarco. He [has pointed out how the false PCR test is being used to create the illusion of a pandemic that doesn't exist](#), and others have pointed out that the [90-95% success rate claimed by vaccine companies](#) can easily be created by manipulating the PCR test to give specific results. The PCR test creates an asymptomatic "case-demic", which further perpetuates needless fear. "Rising cases", which are up to 90% of false positives are being used to promote unnecessary lockdowns and mask mandates as well as fear and hysteria. The point here is to understand that "positive" tests have nothing to do with documenting an actual clinical Covid-19 infection. Citing "positive" test results is not an indication of Covid-19 infection and certainly unrelated to the rate of Covid-19 deaths, which are decreasing even though "rates of positive testing" are rising.

As I pointed out previously, [recent research from John Hopkins](#) shows that the death rates for different age groups have been unaffected by Covid-19. CDC statistics show that there has not been an increase in total deaths this year furthering the point that the Covid pandemic cannot be a pandemic because there's been no change in the overall death count in the populations of all ages.

[Portuguese and German courts have now ruled that the PCR tests are inaccurate](#). A group of German lawyers, who founded the [Außerparlamentarischer Corona Untersuchungsausschuss \(ACU\)](#), also known as the "Corona Extra-Parliamentary Inquiry Committee," are preparing to launch mass class-action lawsuits regarding the vaccine and the state pandemic. They are currently preparing the biggest class-action lawsuit in

history, in which they seek to prove that the inaccurate PCR tests are being used to create the appearance of a pandemic. These lawyers, besides challenging the validity of the PCR test, seriously raise the question of whether they are even connected to the SARS-COVID-2 infection. They challenge, as I have also pointed out, the misbelief that lockdowns, mask mandates, and quarantines are effective at all because there's no difference in Covid 19 death statistics between regions that have lockdowns and those that don't. It appears that Covid-19 has not created an excess mortality rate anywhere on earth.

Why is this important?

When we use medical treatments, we have to ask, "What is the risk-to-benefit ratio?" The actual risk of COVID is low compared with the risks associated with the vaccine, which [Bill Gates publicly stated may maim or kill up to 700,000 people worldwide](#). Even some of the manufacturers have stated that it neither prevents, stops the spread, nor treats Covid-19. The mRNA vaccine actually deprograms and changes the DNA of the individual receiving the vaccination, which may lead to untold complications and side effects over the longterm, and which also goes against God's plan, and is a violation of our essential humanity.

Subjecting the whole world to an untested unproven vaccine that doesn't even prevent the transmission or infection of Covid-19 leads us to the potential of a major calamity with many deaths and many more being permanently injured, and having their DNA altered for life. It's important to understand as different from a traditional vaccine side-effect, which may be reversed, [altering of DNA by an mRNA vaccine is irreversible](#). Mandating and giving these untested vaccines is explicitly a violation of the Nuremberg Code and is a violation of our sovereign right to life and freedom of medical choice. This is particularly troublesome because there is no scientific evidence justifying such an extreme approach.

I'm giving you this data so that you can make an informed choice of whether to be vaccinated or not. [It's interesting that over 93% of Americans don't want to be vaccinated for Covid-19](#). This data may give you a hint as to some of

the larger implications of a questionable rushing of an untested, potentially mandatory, potentially life-changing, life-harming, and even deadly vaccine to the public. I urge you to do in-depth research on the questions I've raised.

This video from Doctors Around the World significantly supports my message in this newsletter. [Please take the few minutes it takes to see it.](#) Its main points made by doctors around the world are:

- There is no real medical pandemic or medical emergency, and no accurate test to indicate the presence of covid-19 infection and therefore no need to risk your health and life by taking an experimental phase three untested vaccine.
- The real pandemic is fear and hysteria.
- The covid vaccines have not been proven safe or effective for short term and long term safety.
- Approximately 18 to 20 years of covid vaccine research has not solved the long and short term side effects including female sterility, cancer, and a variety of auto-immune disorders,
- The mRNA vaccines will Irreversibly alter and change our God-given genetic code.
- Mandated vaccinations are a violation of body autonomy, freedom of medical choice, and prevention of information that prevents us from having enough scientific information to make an informed choice.
- The use of nanobot and nano lipid technology in the Covid-19 can potentially “control” our consciousness and negatively transform us to lose our humanity.
- The vaccine represents the penetration of the body, mind, and spirit by the State.

Health comes from connecting to our soul and what it means to be human plus enough vitamin D, zinc, and vitamin C in specific for Covid-19 protection plus basic good nutrition and health.

Blessings to your health and spirit,

Gabriel Cousens, MD
